

Dear Sir or Madam,

I would like to make a comment in response to question 8.1:

8.1 Are you satisfied that the information that government collects about you is being handled in such a way that your privacy is protected? If not, what concerns do you have? What more should be done to protect your personal information?

I work at the Moncton Hospital and every year, my name and my salary are published on the government website (in the Public Accounts-Salary Listings of Organizations). I believe that the government should NOT be allowed to publish my name. If they want to post my position/title and salary, that is not a problem but I feel that publishing my name is a misuse of my personal information and that my privacy has been compromised.

Regards,
