

Dear To Who It May Concern,

I want all information that is needed if the courts need it to help prove that children are being sexually abuse or abused to be given to the court to keep all children protected and safe, to help that court to prove that. I do not want this information held back or keep private. I also want the age of consent raised to at least to 16! This the age in most parts of the world to protect children. Lets not be a haven for pedophile!! When comes to children they come first and not their parents. Children have rights too, not be raised in bad home. Also, I would like to receive the discussion paper on Access to information and Privacy.

I will be coming to the Government about raising the age to atleast 16 and I going to change this as it has affected me and my children!!!
Yours Truely!

I going to take over Terry Fox's fight to change this age of consent!! Sexual abuse is a cancer!!!
