

Good morning,

I am writing in response to the submission of A. E. MacDonald Insurance Services on behalf of the New Brunswick Volunteer Firefighters.

I fully support the recommended change to the Act as submitted to the panel.

The environment in which we work continues to present new challenges and risks. Due to this changing environment, we are continuously improving and evolving our training of and approach to fire fighting, rescue and medical emergency response.

I feel strongly that the the Workplace Health, Safety and Compensation System should also evolve and the Review Panel implement the change as recommended to the Act by A. E. MacDonald Insurance Services.

Regards,
Chris Woodill
Captain
Norton Volunteer Fire and Rescue
