

We, the Shediac Fire Dept. are supporting the issues being raised by VFIS. Firefighting is one of the most dangerous jobs, and for some to do it on a volunteer basis can become overwhelming. The sacrifice that these people take for their families, their communities, to their workplace, their every day activities and foremost to themselves is incredible. Ask yourself this question; Would you (members of the panel) make that sacrifice under the conditions the WCB is providing for the firefighters of the province of New-Brunswick ? I sincerely hope you will answer this question with the attention and determination it deserves as the issues being raised today! Thank You. (from a firefighter that's been doing this for the pass 28 years, PROUDLY!)
